

## A first game with a lot of depth!

**Echoes: Deep-sea Exploration**, first game of the French studio Cheese Burgames, is an exploration game that sails you aboard a minesweeper submarine. Downloadable on iOS and Android platforms (**smartphones and tablets**), the game is available on the [Apple AppStore](#) and the [Google Play Store](#) since July 16<sup>th</sup>. Windows Phone, Mac and PC versions will be soon released.

What about your mission? Clear the seabed, full of explosive mines, aboard the S.M.D Imperceptible, a minesweeper submarine, with the Captain Kratz and his sparkling mechanic, Pam, always prepared to fix your mistakes. Find your way thanks to your sonar, cross the labyrinths, repel the sea creatures, avoid the wrecks and enemies on your way and maneuver through the ocean currents to achieve all the missions.

### Characteristics:

- 56 maps in 6 different worlds,
- More than 130 mines to defuse
- More than 100 enemies of all types to avoid,
- Several hours of fun for 1,99\$

## About Cheese Burgames

Cheese Burgames is an independant video game development studio founded in 2014 and located in Montpellier, south of France.

Passion for games and strong values, like creating quality products and respecting the people for and with who we work (customers, partners and collaborators), got us together for the Cheese Burgames project.

We come from various and complementary professional fields including video game design and our goal is to create tasty, rich and qualitative playful experiences.
